- How the new WSHA law would affect the WORKPLACES of your Company – your legal exposure ?
- Confirm whether you are required to comply to this new law ?
- What you have to do to avoid being jailed or fined – your legal management next ?
- be made aware of CCIS – an MOM-APPROVED RISK MANAGEMENT CONSULTANT help ?

Let **CCIS** – the **C**orporate **C**are **I**n **S**afety – takes care of your MOM requirements in risk management **CCIS** is mom-approved Consultant & Trainer & work closely with agents SNEF, SBF, STAS, SCCCI

Accident investigations revealed that many of the companies had not implemented proper Risk Management (RM). RM involves identifying hazards at the workplace and implementing effective risk control measures. Under the WSH (Risk Management) Regulations, every workplace should conduct a Risk Assessment (RA) for all work undertaken and implement practicable risk control measures.
